RE: URGENT FIELD SAFETY NOTICE Voluntary Product Removal of Certain Lots of TB Unshrouded Bipolar Pacing Leads Recall Number: 1035166-09/07/2018-001-R

Dear Customer,

The purpose of this letter is to inform you that Oscor Inc. is voluntarily recalling certain lots of **TB Unshrouded Bipolar Pacing Leads.** Refer to "Exhibit A" attached for the list of affected lot numbers/models sold to your organization. Please pass this notification to all those who need to be aware of this within your organization. All relevant National Competent Authorities have been advised of the FSCA.

REASON FOR THE VOLUNTARY PRODUCT REMOVAL:

EVENT DESCRIPTION: During the use of some TB – Temporary Bipolar Pacing Leads, featuring the 2mm unshrouded connectors, the connector cap housing may slide and potentially expose the connection wire. In some instances, this may cause the wire to be more susceptible to loss of connectivity or breakage during movement of the cables causing interruption of the pacing system.

REASON FOR RECALL: In the last six years, a total of four serious injuries were reported to Oscor which were attributed to the above connector cap malfunction. No deaths were reported; however the risk for possible injury is a concern if the connectors separates during use.

WARNING:

For pacing dependent patients, an interruption of pacing system could result in serious injury or death if not detected. Continuous monitoring is required.

WHAT TO DO:

- Immediately check your inventory against the list provided with this letter listed on Exhibit A to confirm that you do or do not have units from these lots in your possession.
- If you do have inventory from the lots listed on Exhibit A, immediately set aside in a manner that ensures the affected product will not be used. Check all storage and locations as required.
- Review, complete, sign and return the enclosed– Exhibit A attached to this letter, directly to Oscor Europe Field Safety Notice Group at the fax number or e-mail listed on the form.
- If you do have product, please do not destroy at your location and ensure units are returned to Oscor for proper disposition. Please contact Oscor Europe's Field Safety Notice Group for a Returned Goods Authorization (RGA) number, shipment and other relevant instructions.
- You may also email FSN@oscor.com with any questions regarding any replacement arrangement as applicable.

- Confirmation that you have taken the appropriate actions to this product recall is required within ten (10) calendar days from receipt date of this email notification.

WHO TO CONTACT:
Please call Oscor Europe Field Safety Notice Group at 0049 211 586 786-00 or e-mail FSN@oscor.com. Oscor Europe business hours are Monday to Friday from 8:30AM to 5:30PM GMT.

We apologize for the inconvenience this has caused you, and will use or best efforts to correct this situation as soon as possible. Thank you.

Sincerely,

_____
